

1 Section 1 was rejected. Is there a second?

2 (The motion was duly seconded.)

3 THE CHAIRMAN: Motion having been seconded,
4 the Chair recognizes Delegate Case to speak to the motion.

5 DELEGATE CASE: Mr. Chairman, ladies and
6 gentlemen of the committee, let me hasten to add that I
7 am not a devotee of motions to reconsider. But the vote
8 on this particular amendment came late last night and
9 since there was that factor which caused fatigue in most
10 of us, certainly the speaker, and some mechanical diffi-
11 culty with the equipment, leads me to believe that the
12 amendment was not fully considered and was not fully
13 explained. I think, therefore, that it would be very
14 desirable for the committee to reconsider the vote that
15 was taken at that time together with a full, clear, and
16 lucid explanation of the purpose of this amendment.

17 I shall give you what I consider to be the
18 purpose of the amendment and then leave it to other and
19 more experienced hands to fill in perhaps more of the
20 details.

21 The committee recommendation as it now stands
~~would provide two things for the eligibility to vote in~~
